

Miss Wende's July Newsletter

This summer we will be exploring different habitats and focusing on the environment. The first couple of weeks in July our theme is life on the pond. The children are learning about turtles, tadpoles, frogs, ducks, dragonflies, lily pads, fish, and crayfish. We have been adding different art projects to their individual big ponds

Reminder: We are trying to get outside each day weather permitting. Thanks to everyone for sending in bathing suits and towels. If anyone has extra old sneakers or water shoes that can be kept in the cubbies please send them in and we will keep them at school for water play days. Please keep applying sunscreen each morning. Thanks for your help in making summer safe and fun.

Important Date - August 10th A grilled cheese sandwich will be provided for lunch. If you would like to send in something instead please send it in a brown disposable bag and no glass as well, thanks.
