

# March

## Miss Wende's March Newsletter

We are all happy to celebrate the coming of SPRING this month. The children are looking forward to the melting of the snow and hopefully our first visit to the playground this month.

We will be beginning the first week of March introducing the letter O. Some of the activities for O week include going through an obstacle course, learning about the word opposite and playing with opposite picture cards and listening to opera music while we paint at the easel. The children will be string painting with orange paint on an oval shape for their alphabet page.

The second week of March is going to be P week. This is one of the childrens' favorites because we will be having a make your own little pizza party with help from one of our families who own an Italian restaurant. We will make pizza slices out of paper on our alphabet pages. The children will be able to use puppets to act out stories.

The third week of March is Q week. We will be talking about queens and quilts. The children will make a classroom group patchwork quilt out of individual designs.

Our final week of March is R week. We will be making rabbit puppets and talking about different types of rocks.
